This service will performed by one of our Club Car factory trained technicians at your home or place of business.

The purpose of this inspection is not only to insure your continued satisfaction with your vehicle, but to alert you to any safety or maintenance concerns. For example if your tire pressure has dropped below 20 psi it will be affecting your vehicle performance: steering, brakes, and ultimately battery life.

We maintain over 1500 Club Car Precedents on 23 golf courses in the Midlands and have perfected the most efficient preventable maintenance process to ensure you are getting significant value or your investment.

The cost for this **SERVICE AGREEMENT** is \$100 per year however if you purchase this agreement when you purchase your golf cart from us we will pass on a 25% discount.

We sincerely hope that you will consider including this in your cart purchase as we know it will ensure the optimum performance and longevity of this investment.
